

Canada's most trusted company, proven systems, proven products

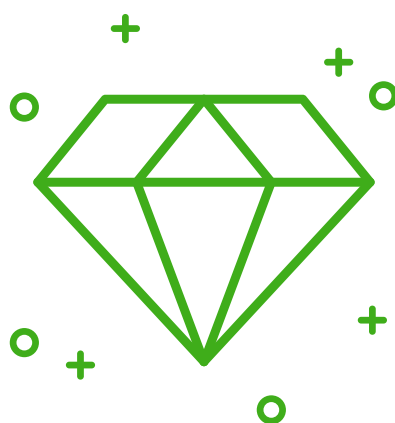

New *Diamond Series* technology

Diamond blade now found in

Natural Real 40, 50, 60, 80, 110, K9 Deluxe

Diamond series is now with new

Pro-Flow backing technology
(patent pending)

Diamond shaped 3D cross section makes for

- Higher Stability and Resilience
- Slightly Thinner yet Stronger grass blade
- more dense, lush and overall authentic appearance

We are able to gain strength in the blade, while still maintaining our unique ProGreen Supersoft technology.

Following an international tactile test amongst 3 leading synthetic grass products, when asked, "which one feels the softest?" our new Diamond blade was chosen 100% of the time.
